

## 7.3 Permeable Interlocking Concrete Pavements

### Introduction

More recent developments in uses for interlocking pavements have seen pavements used to absorb water rather than shed it. The broad outlines of the technique are shown in Section 1.1 of the Masonry Manual.

NZCMA Company member, Firth Industries ([www.firth.co.nz](http://www.firth.co.nz)) has special access to permeable paving designs. See *Firth Ecopave System: Installation Guide* available from the following link: <http://www.firth.co.nz/assets/Uploads/Brochures/Firth-ecopave-system-installation-guide.pdf>.
